Erlangen, 15th July 2021

The professorship for Physics Education Research
at the Friedrich-Alexander University Erlangen-Nuremberg
offers several positions as

Student Assistant (m/f/d)

to work in a research project on the didactics of modern quantum physics with 6 - 10 hours
per week. The position is limited to 6 months. An extension for a further 6 months is possible.

The candidate will...

- ...support for the creation of digital teaching materials on quantum physics
- ...Participation in the implementation of the research project on the didactics of quantum physics.

Necessary qualifications:

- Interest in and basic knowledge of quantum physics
- Excellent knowledge of typical Office applications and Latex

What we offer:

- Collaboration on a project within a highly topical field of research
- Insight into empirical research and working in research at a professorship
- Free arrangement of working hours and possibility to work in home office

Potential candidates should apply with their documents (CV, transcript of records, ...) in a single file by 15th August 2021 at the latest by e-mail to: philipp.bitzenbauer@fau.de. Feel free to contact Dr. Philipp Bitzenbauer regarding any further questions.
